

Exploring the Structure and Evolution of the North American Continent

Please join us for an EarthScope reception as we recognize the contributions of the National Science Foundation and the other agencies and organizations that have made the first five years of EarthScope a resounding success. State-of-the-art EarthScope equipment will be on display and recent EarthScope scientific discoveries will be highlighted.

WHEN: Wednesday, April 29, 2009
5:30pm-8pm

WHERE: Top of the Hill Banquet & Conference Center
Reserve Officers Association
One Constitution Avenue, NE
Washington, D.C. 20002

RSVP: By Friday, April 24 to ESevent@iris.edu with name and number of guests (preferred, not required)

A symposium to present EarthScope scientific discoveries will be held at the Top of the Hill earlier that afternoon.

For more information on the reception and symposium, please visit www.earthscope.org/reception.

This reception is sponsored by a coalition of Earth science organizations.

DIRECTIONS TO:
Top of the Hill, 5th floor
RESERVE OFFICERS ASSOCIATION

Located East of the Capitol building and directly South of the Dirksen Senate Office Building at the corner of First Street and Constitution Avenue, NE.

FROM THE METRO:

Union Station (Red Line) (15-minute walk)
Walk South toward the Capitol dome on either First Street or Delaware Avenue; cross Constitution Avenue. The ROA will be on your left.

Capitol South Station (Blue or Orange Line) (10-minute walk)
Walk North along First Street past the Library of Congress and the Supreme Court. The ROA will be on your right.

DRIVING DIRECTIONS:

There is limited parking around Capitol Hill. The surrounding neighborhoods have two hour on-street parking. The closest parking garage is at Union Station.
