In the News

We congratulate three schools in our network this month who received excellent news coverage with all the recent earthquakes!

**Paducah Tilghman High School**
Paducah, Kentucky
Alan Tucker & Nancy Mullenax

**James Monroe High School**
Rochester, New York
Juan Betancourt

**UW- Whitewater**
Whitewater, Wisconsin
Juk Bhattacharyya

Calibration Kits Now Available!

We are pleased to announce that the new AS-1 Seismometer Calibration and Tune-up kits are available at no charge! They are available to any school in the US that is registered in our database. Not in our database? Register now!

- Enter your contact/shipping information in the request form. The request from can be found under the Resources menu on the Seismometers page.

- Also, download the guide to accompany the kit.

This kit and guide includes equipment and instructions to perform 9 tune-up procedures to use when you set up, move, or just want the best performance possible from your instrument. Additionally, the guide includes the equipment and instructions to perform 5 calibration procedures.

Please use this guide to perform baselines tests so that if you have problems later they can be used to help troubleshoot your seismometer.

Inherited AS-1?

If you inherited your AS-1, please contact us at tkb@iris.edu. We need to update the contact information for your station.

If you are running an AS-1 and you never attended an IRIS workshop, we may have an opportunity for you to attend our fall AS-1 workshop! There are limited spots available, so contact us soon!

Is your station in the database?

For the past decade, IRIS has loaned instruments to middle and high schools around the country. However, it has only been in the past few years that there has been an online database available to register your station. There are many benefits to registration, including troubleshooting assistance, parts replacement, new curriculum, networking with educators around the world, and information when a major earthquake occurs.

- Please take a moment to check that your station is registered.
  http://www.iris.edu/hq/ssn/schools

- If not, please register your station!
