

2012 AGU Paper Schedule - IRIS Internship Program

S. Name Institution	Anticipated Graduation	Host	AGU Abstract	Session Number
Ryan Armstrong Colorado College	Spring 2013	Dr. Ellen Syracuse	Repeating Earthquakes in the Darfield Region, New Zealand	S21B-2511
Gregory Brenn Union College	Spring 2014	Dr. Lee Liberty	Investigation of Induced Seismicity from a Geothermal System, Neal Hot Springs, Eastern Oregon	S43D-2487
Leah Campbell Yale University	Spring 2015	Dr. Rufus Catchings	Near Surface Structure of the Frijoles Strand of the San Gregorio Fault, Point Año Nuevo, San Mateo County, California, from Seismic Imaging	S53D-2533
Lilianna Christman College of Wooster	Spring 2013	Dr. Simon Klemperer	Characterizing potential earthquake signals on the Stanford-USGS ultra-low frequency electromagnetic array	NH41B-1608
Erin Cunningham Tulane University	Spring 2013	Dr(s). Andy Frassetto & Ved Lekic	Obtaining Interpretable Receiver Functions to Study Lithospheric Structure in the Central US	T53C-2722
Noorulann Ghouse Miami of Ohio	Spring 2014	Dr. Mike Brudzinski	Seismicity Patterns of the Oaxacan Segment of the Middle American Subduction Zone	T13F-2683
Eva Golos Cornell University	Spring 2013	Dr. Simon Klemperer	SKS anisotropy on a dense broadband array over the Ruby Mountains Metamorphic Core Complex, Nevada	T43C-2691
Dulcie Head Pomona College	Spring 2014	Dr. Hrvoje Tkalcic	Surface Wave Dispersion from Recent Australian Earthquakes	S41A-2369
Ayla Heinze Fry U. of Massachusetts	Spring 2013	Dr. Michael West	Controls on the rate and location of crevassing icequakes at Yahtse Glacier, Alaska	C23B-0652
Calvin Johnson Fort Valley State U.	Fall 2012	Dr. Mike Brudzinski	Crustal Structure of the Eastern U.S. from Regional Network Recordings of Wide Angle Moho Reflections	S41A-2422
David Krzesni New Mexico Tech	Spring 2013	Dr. Matt Pritchard	Reconnaissance seismology at nine volcanoes of the central Andes	V53B-2817
Amanda Livers Concordia College	Spring 2013	Dr. John Hole	Structure of the active rift zone and margins of the northern Imperial Valley from Salton Seismic Imaging Project data	T51B-2577
Rachel Petit Western Washington	Fall 2012	Dr. John Hole	Controlled-Source Seismic Survey to Constrain Evolution of the Continental Cratonic Margin in Idaho & Eastern Oregon	T23C-2686

2012 AGU Paper Schedule - IRIS Internship Program

Anna Pfohl Pacific Lutheran U.	Spring 2013	Dr. Linda Warren	Searching for Tectonic Tremor on the North Anatolian Fault	S33B-2541
Maya Wei Brown U.	Spring 2013	Dr(s). Danielle Sumy & Elizabeth Cochran	Preliminary Focal Mechanism Analysis of the 6 November 2011 M 5.7 Oklahoma sequence	S51E-2455
